PRESS RELEASE

Puerto Rico Advances Casino Technology Innovation

NOVOMATIC developed a progressive jackpot system specifically for Puerto Rico, with a top prize starting at $30,000.

SAN JUAN, Puerto Rico, November 20, 2026. As part of its efforts to grow in the local market, NOVOMATIC Americas, part of the NOVOMATIC Group of Companies, announced the upcoming launch of DE LA ISLA JACKPOT™, a progressive jackpot system developed specifically for Puerto Rico. The system will connect slot machines at 11 casinos, representing two thirds of the casinos currently operating in the local market.

An extension of NOVOMATIC's Globe Link™ EPIC game line, the technology will allow machines at different casinos to contribute to a shared top jackpot. The jackpot will start at $30,000 and grow with play. The system is scheduled to go live on November 20, pending final confirmation.

"Puerto Rico is more than a market where we introduce technology developed for other countries. It has an identity of its own that can inspire new products. With DE LA ISLA JACKPOT™, we combine our international experience and ability to innovate with elements of Puerto Rican culture to create a gaming experience tailored to the local market," said Luis Del Valle, general manager of NOVOMATIC Puerto Rico.

The launch comes as Puerto Rico's casino industry is expanding. According to figures released in October by the Puerto Rico Gaming Commission, the sector contributes about $200 million annually to the government. There are 21 casinos in operation, and three more are under construction.

The platform is part of a broader technology offering that NOVOMATIC began introducing in Puerto Rico in October 2025 and expanded in September 2026 with DE LA ISLA JACKPOT™. Its design features the Puerto Rican flag, tropical illustrations, native vegetation and interactive signage, along with Kike and Tita, two coquí frogs created as product ambassadors.

The initial rollout will feature three games.

- **Golden Sizzling Hot™** is a version of the classic fruit game with progressive jackpots and the LOCK&SPIN, Winning Spins and JACKPOT CHANCE features.
- **Golden Charming Lady™** features free rounds, LOCK&SPIN and JACKPOT CHANCE.
- **Golden Dolphin's Pearl™** is a game inspired by the ocean with free rounds, progressive jackpots, multipliers and the LOCK'N'WIN feature.

All three games will be linked to the shared progressive jackpot. The company expects to add more titles at a later date.

About NOVOMATIC

The NOVOMATIC AG Group is, as a producer and operator, one of the largest gaming technology groups in the world and employs more than 26,000 people. The Group was founded by the industrialist Professor Johann F. Graf in 1980 and has locations in about 50 countries, and exports innovative gaming equipment, system solutions, lottery system solutions, and services to more than 130 countries. The Group operates gaming terminals and video lottery terminals (VLTs) in its own approximately 2,000 electronic and regular casinos, as well as via rental models.

The NOVOMATIC AG Group is active as a provider of a full range of services in all segments of the gaming industry through its numerous international subsidiaries, offering a comprehensive omnichannel product portfolio for partners and customers worldwide. This ranges from terrestrial gaming products and services, through management systems, cash management solutions, and online, mobile, and social gaming solutions, to lottery and sports betting solutions, as well as a whole host of other products and services.
